Chapter 1

Paleoradiology: History and New Developments

Rethy K. Chhem.....	1
1.1 Paleoradiography	2
1.2 Paleoradiology of Royal Egyptian Mummies	5
1.2.1 1912 Thoutmosis IV	5
1.2.2 1933 Amenophis I.....	6
1.2.3 1965 Royal Mummy Collection	6
1.2.4 1968 Tutankhamun	7
1.2.5 1976 Ramesses II.....	7
1.3 Paleo-CT	8
1.4 Paleo-MRI	9
1.5 Paleoradiology and Clinical Radiology:Historical Development.....	10
References	12

Chapter 2

Paleoradiologic Techniques

George Saab, Rethy K. Chhem, and Richard N. Bohay	15
2.1 X-ray Imaging For Bioarcheology	15
2.2 Radiographic Production	16
2.2.1 Equipment Overview	16
2.2.2 Portable X-ray Imaging Systems.....	16
2.2.3 X-ray Factors	17
2.2.3.1 The Photoelectric Effect.....	17
2.2.3.2 The Compton Effect.....	18
2.2.4 Equipment Factors	18
2.2.4.1 Grids	18
2.2.4.2 Radiographic Film	19
2.2.5 Geometry Factors	19
2.2.5.1 Focal Spot Size.....	19
2.2.5.2 Source, Object, and Film Distances.....	20
2.2.6 Standard Radiographic Views	21
2.2.6.1 Cranial Bones	21
2.2.6.2 Postcranial Bones	21
2.2.7 Optimizing Radiographic Production Factors	24
2.2.8 Quick Troubleshooting Guide	24
2.3 Image Quality	24
2.3.1 Contrast	25
2.3.2 Resolution	25
2.3.3 Noise	25
2.4 Advances in Radiography and Archiving.....	25
2.4.1 Computed Radiography.....	26

2.4.2	Digital Radiography	26
2.4.3	Picture Archiving and Communication Systems	26
2.5	Computed Tomography	26
2.5.1	Four Generations of CT Scanner Designs	27
2.5.2	Spiral, Multislice, and Three-Dimensional CT	28
2.6	Magnetic Resonance Imaging	29
2.7	Advanced Imaging Methods	29
2.7.1	Micro-Computed Tomography	29
2.7.2	Coherent-Scatter CT	29
2.7.3	Stereolithography and Fused Deposition Modeling	30
2.8	Dental Radiology	30
2.8.1	Technical Factors	30
2.8.1.2	Dental Film	30
2.8.1.2	Film Exposure	30
2.8.1.3	Film Processing	31
2.8.1.4	Digital Image Receptors	32
2.8.1.5	Film Mounting and Storage	32
2.8.2	Basic Anatomy of the Teeth and Jaws	32
2.8.2.1	Basic Dental Radiography	34
2.8.2.2	Occlusal Radiography	36
2.8.3	Specimen Imaging	37
2.8.3.1	Imaging Intact Jaws	37
2.8.3.2	Radiography of Tooth/Bone Fragments	39
2.8.3.3	Radiography of Loose Teeth	39
2.9	The Radiographic Appearances of Some Selected Diseases of the Teeth and Jaws	39
2.9.1	Dental Caries	39
2.9.2	Periapical Inflammatory Disease	40
2.9.3	Periodontitis	40
2.9.4	Osteomyelitis	42
2.9.5	Pericoronal Disease	42
2.10	Applications in Paleoradiology	43
2.10.1	Three-dimensional CT in Paleoanthropology	43
2.10.2	CT and Burials	53
2.10.3	CT and Mummies	53
	References	54

Chapter 3

The Taphonomic Process, Biological Variation, and X-ray Studies

Don R. Brothwell	55
------------------------	----

3.1	X-raying the Whole Range of Bioarcheological Materials	55
3.2	The Evaluation of Botanical Remains	56
3.3	Radiological Aspects of Zooarcheology	58
3.4	Positioning and Image	59
3.5	Taphonomic Aspects of Bones and Teeth	60
3.6	Measurement from X-rays	62
3.7	X-raying Aspects of Growth	62
3.8	Frozen, Dried, and Mummified Bodies	63
3.9	Microradiography	65
3.10	Problems of Differential Diagnosis	66
3.10.1	Horncore "Thumbprints"	66
3.10.2	Leg Bones	66
3.10.3	Vertebrae	67
3.10.4	Significant Bone Loss	67
3.10.5	Abnormal Cavities in Bone	68

3.11	Conclusion	69
3.12	Summary	70
	Acknowledgments	70
	References	70

Chapter 4

Diagnostic Paleoradiology for Paleopathologists

	Rethy K. Chhem, George Saab, and Don R. Brothwell	73
4.1	Introduction	73
4.2	The Paleoradiology Method	74
4.2.2	The Classification of Human Bones	76
4.3	Gamuts Approach: The Tricks of the Trade	76
4.3.1	The Classification of Human Joints.	76
4.4	Bone Trauma	76
4.4.1	The Classification of Fractures and Basics of X-ray Interpretation	77
4.4.2	Differential Diagnosis	78
4.4.3	The Healing Process and Complications of Fractures	78
4.5	Joint Trauma	80
4.6	Arthropathies	81
4.6.2	Basics of X-ray Interpretation	84
4.6.3	Arthropathies of the Spine and Pelvis	87
4.6.4	Arthropathies Affecting the Limbs	91
4.6.4.1	Osteoarthritis (Degenerative Joint Disease)	91
4.6.4.2	Rotator Cuff Arthropathy	92
4.6.4.3	Neuropathic Arthropathy	92
4.7	Infection	93
4.7.2	Basics of X-rays Interpretation	93
4.7.3	Differential Diagnosis	93
4.7.4	Common Bone Infections in the Archeological Record	94
4.7.4.1	Pyogenic Infection	94
4.7.4.2	Syphilis and other Treponematoses	94
4.7.4.3	Tuberculosis	96
4.7.4.4	Leprosy	98
4.7.4.5	Brucellosis	98
4.7.4.6	Paget's Disease	99
4.8	Tumors	99
4.8.1	Classification of Bone Tumors	99
4.8.2	Basics of x-ray Interpretation of Bone Tumors	100
4.8.2.1	Periosteal Reactions	101
4.8.2.2	Internal Margins	103
4.8.2.3	Matrix Patterns	104
4.8.3	Common Tumors	105
4.8.3.1	Osteochondroma or Exostosis	105
4.8.3.2	Enchondroma	105
4.8.3.3	Osteosarcoma	105
4.8.3.4	Paraosteal Sarcoma	106
4.8.3.5	Ewing's Sarcoma	107
4.8.3.6	Chondrosarcoma	108
4.8.3.7	Giant Cell Tumor	108
4.8.3.8	Osteoma	108
4.8.3.9	Fibrous Dysplasia	108
4.8.3.10	Simple Bone Cyst	109
4.8.3.11	Aneurysmal Bone Cyst	109
4.8.3.12	Vertebral Hemangioma	110

- 4.8.3.13 Pseudotumor 110
- 4.8.3.14 Metastases Versus Multiple Myeloma 110
- 4.9 Metabolic, Endocrine, Ecosystem Diseases, and Anemias 112
- 4.9.1 Congenital Skeletal Diseases 112
- 4.9.2 Osteoporosis 113
- 4.9.3 Osteomalacia and Rickets 113
- 4.9.3.1 Rickets at the Wrist 114
- 4.9.4 Harris Lines 114
- 4.9.5 Avascular Necrosis–Bone Infarcts 115
- 4.9.6 Anemias 115

Chapter 5
Paleoradiology in the Service of Zoopaleopathology

- Don R. Brothwell 119
- 5.1 Congenital Abnormalities 120
- 5.2 Summary of Radiological Features of Congenital Abnormality 121
- 5.2.1 The Skull 121
- 5.2.1.1 Encephalomeningocele 121
- 5.2.1.2 Hydrocephalus 121
- 5.2.1.3 Brachygnathia and Micrognathia 121
- 5.2.1.4 Cleft Palate 121
- 5.2.1.5 Cerebral Hernia 122
- 5.2.2 The Postcranial Skeleton 122
- 5.2.2.1 Dwarfism 122
- 5.2.2.2 Hip Dysplasia 122
- 5.2.2.3 Hemivertebrae 122
- 5.2.2.4 Arthrogryposis 122
- 5.2.2.5 Syndactyly 122
- 5.2.2.6 Other Conditions 122
- 5.2.3 Nutritional and Metabolic Conditions 123
- 5.2.3.1 Osteoporosis (Osteopenia) 124
- 5.2.3.2 Rickets 124
- 5.2.3.3 Hypervitaminosis A 124
- 5.2.3.4 Hypothyroidism 124
- 5.2.3.5 Juvenile Scurvy (Hypertrophic Osteodystrophy) 125
- 5.2.3.6 Osteodystrophia Fibrosa 125
- 5.2.3.7 Fluorosis 125
- 5.2.3.8 Harris Lines 126
- 5.3 Trauma 126
- 5.3.1 Fracture Healing 127
- 5.3.2 Infection 129
- 5.3.2.1 Interdigital Necrobacillosis 131
- 5.3.2.2 Vertebral Osteomyelitis 131
- 5.2.3.3 Actinomycosis 132
- 5.2.3.4 Coccidioidomycosis 132

5.2.3.5	Atrophic Rhinitis	132
5.2.3.6	Osteopetrosis	132
5.4	The Arthropathies	132
5.4.1	Osteoarthritis	133
5.4.2	Osteochondritis Dissecans	133
5.4.3	Legg-Perthes Disease	133
5.4.4	Infectious Arthritis	133
5.4.5	Rheumatoid Arthritis	134
5.4.6	Ankylosing Arthritis	134
5.4.7	Navicular Disease	135
5.4.8	Bovine Spavin	135
5.5	Neoplasms	135
5.5.1	Examples of Tumors Affecting the Skeleton	137
5.5.1.1	Synovial Sarcoma of Joints	137
5.5.1.2	Benign Tumors	138
5.5.1.2	Malignant Tumors	139
5.5.2	Secondary Tumors of Bone	139
5.5.2.1	Metastatic Deposits	139
5.5.2.2	Hypertrophic Pulmonary Osteoarthropathy	139
5.6	Oral Pathology	140
5.6.1	Classifying Oral pathology	141
5.6.1.1	The Teeth	141
5.6.1.2	The Jaw Bones	141
5.6.1.3	Comparative and Epidemiological Studies	142
5.7	Conclusions	143
